Ice Cream, Sorbet or Sherbet?

Do you have a preference between ice cream, sorbet, or sherbet? It has been really hot this summer and any one of these cold treats can help curb the effects of the heat. But how do you choose which one to have? What are the major differences? Ice Cream has the highest content of milk fat, Sorbet has no milk fat, and Sherbet has minimal milk fat. Sorbet and Sherbet have higher concentrations of fruit. All three offer a significant number of flavor options. I hope you find the sweet treat that hits the spot.
